

27th Porter Classic
December 1-3, 2023
Ann Arbor, Michigan USA

Parking Guide

1. We will again provide overflow parking for the weekend. Our shuttle van will run when the Cube lot is full. It will be parked in the pick-up area in front of the rink. A sign on the door will identify the shuttle.
2. There is no parking on Oak Valley Drive and the township will ticket.
3. Carpool or have someone drop you off, especially for Saturday practice. Expect a full lot.
4. Arrive early, drop off your family and drive to the overflow lot if there are no spots in the lot. If the shuttle is at the rink tell the driver you are going to the overflow lot and he will follow you there. The shuttle will leave the Ice Cube for the overflow lot approximately every 20 minutes and will promptly return from the lot. Shuttle service will run during competition hours all weekend as long as the lot at the Cube is full.
5. To get to the overflow lot turn left out of the rink and travel 0.8 mile on Oak Valley Drive to the back entrance of the Oak Valley Centre on your left. Pay attention because there is no sign for the Oak Valley Centre on this back entrance. This will take you behind the strip mall and you will enter the parking lot at the northeast corner. Porter overflow parking will be straight ahead and marked so you can easily find the correct location in the lot. Road signs will be posted to guide you.
6. Remember arrive early and be patient.
